1. INTRODUCTION

1.1 SECURITY CLASSIFICATION

This document is marked as **UNCLASSIFIED** as there are no sensitive details contained in it and it is expressly written to be circulated both internally and externally.

1.2 DATA INTEGRITY

The statistics, tables and graphs contained in this document are based on substantiated cases, which are active investigations of an incident that has definitely happened. This is as opposed to using incident data, which is an initial recording of a crime that has yet to be substantiated.

While every effort is made to ensure that the information contained in this report is accurate, the BPS makes no warranty, representation or guarantee as to the content, sequence, accuracy, timeliness or completeness of any data or information provided. The reader of the following pages should not rely on the data provided for comparison purposes over time, or for any reason. The BPS shall assume no liability for any errors, omissions, or inaccuracies in the information provided. The BPS will not be responsible for the use of, or the results obtained from the use of this document. The BPS assumes no liability for any decisions made or actions taken or not taken by the user in reliance of this document. Any use of the document for commercial purposes is prohibited.

1.3 EXPLANATION OF GRAPHS

The graphs used in this report include standard deviation, which has been used as a means of objectively measuring how much the crime rate has varied over time and is useful in identifying extreme highs and lows of crime. Standard deviation has been used so that where the crime rate is above the red line (2 standard deviation above the mean average), it is considered exceptionally high. Where the crime rate is below the blue line (2 standard deviation below the mean average), it is considered exceptionally low. In both cases it can be referred to as statistically significant (high or low) and is an indication of whether the quarterly statistics are exceptionally high or exceptionally low.

1.4 AIM

The aim of this report is to produce accurate, timely, objective information that:

- Enables informed decisions to be made on the types of crime that threaten the safety of the community.
- Is used to proactively manage risks to the island and ensure effective policing, redeploying and directing resources at a strategic and tactical level, as required.
- Facilitates effective and open communication with our stakeholders, developing the means to inform them of the plans, efforts and progress being made by the BPS.
- Provides meaningful information as one of the means of reassuring communities in Bermuda.

2.2 TRENDS

Q3 2011 is the 5th lowest quarterly crime figure since Q1 2000¹. There have been less than 1,200 crimes per quarter in 6 out of the last 7 quarters, reinforcing the view that there has been a **decrease** in the **long term trend of all crime in Bermuda**. This can be seen in Figure 3, which shows crime for the last 19 quarters, with Q3 figures highlighted in boxes:

Figure 3: All Crime By Quarters (Q1 2007 – Q3 2011)

¹ See Appendix D for a chart showing All Crime In Bermuda By Quarter (Q1 2000 - Q3 2011).

In Q3 2011 the notable crimes within the Crimes Against A Person category were Murder (-2), Serious Assaults (-10) and Other Assaults (-26). A summary of Crimes Against The Person for the last 19 quarters can be seen in Figure 5, with Q3 figures highlighted in boxes:

Figure 5: Crimes Against the Person By Quarters (Q1 2007 – Q3 2011)

4. FIREARM INCIDENTS

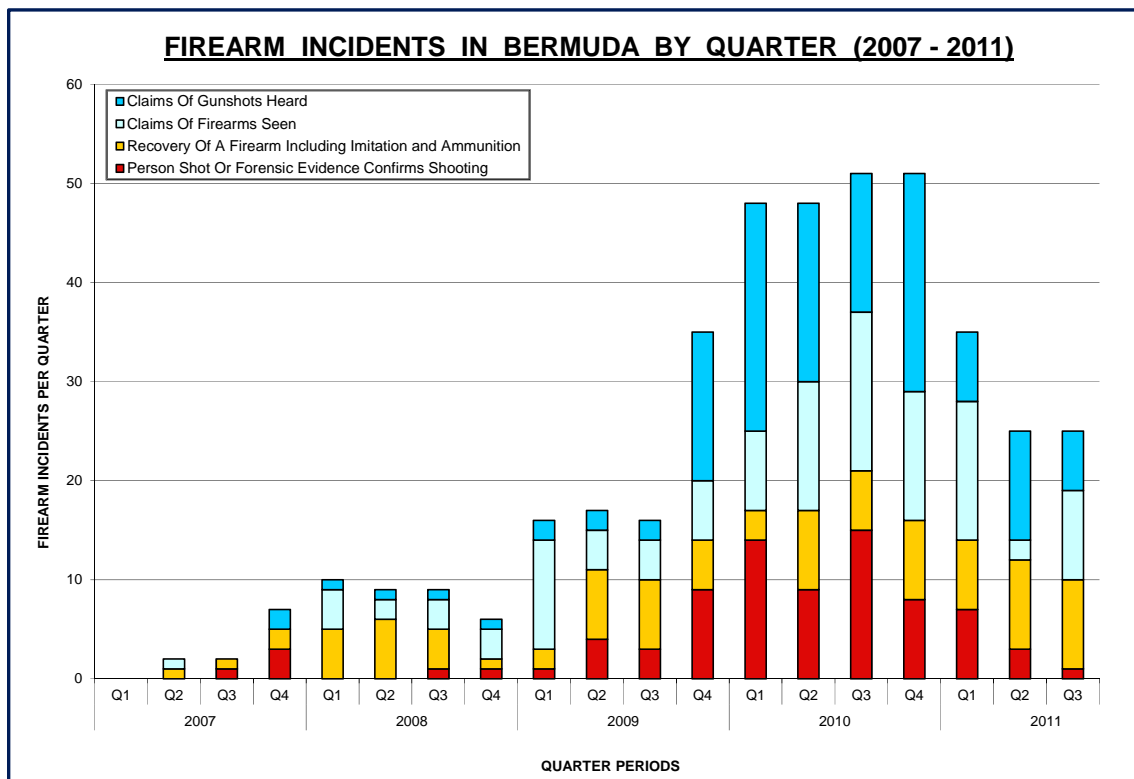

Firearm Offences are included within Crimes Against The Community (Section 5); however firearm incidents² may not necessarily be recorded as offences, as often there is no suspect or even a victim.

4.1 SUMMARY

In Q3 2011 there were **25** firearm incidents of which **10** were confirmed firearm incidents and **15** were unconfirmed firearm incidents. This is the same total as Q2 2011, however there were 2 less confirmed firearm offences and 2 more unconfirmed firearm offences in Q3 2011 when compared to Q2 2011.

There was a substantial increase in quarter on quarter firearm incidents between 2007 and 2010, with Q3 2011 continuing to show signs of a decrease in confirmed firearm offences. This can be seen in Figure 6, which shows firearm incidents between 2007 and 2011:

Figure 6: Firearm Incidents In Bermuda (2007 - 2011)

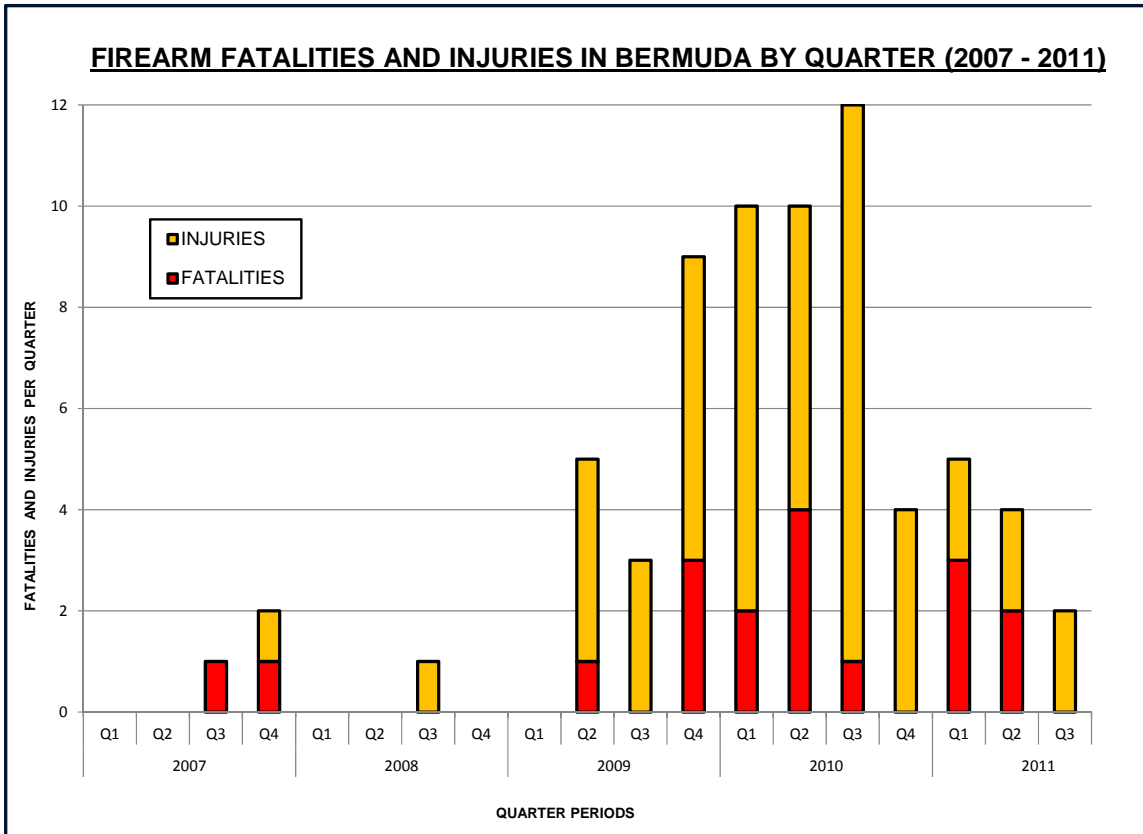

² To enable accurate recording, analysis and reporting of firearm incidents, the BPS classifies firearm incidents into 4 categories which are split into either **confirmed** or **unconfirmed** categories. A confirmed incident is where forensic evidence proves the incident occurred e.g. a firearm has been seized, shell casings or bullets are recovered, or a person has a gunshot wound. **Person Shot or Forensic Evidence Confirms Shooting** and **Recovery of A Firearm Including Imitation and Ammunition** are classified as **Confirmed**, while **Claims of Firearms Seen** and **Claims Of Gunshots Heard** are classified as **Unconfirmed**.

4.2 FIREARM TRENDS

The **10** confirmed firearm incidents in Q3 2011 included the recovery of **5** firearms, **1** imitation firearm and **404** rounds of live ammunition. In Q3 2011 there were **0** fatalities and **2** injuries. This brings the total number of persons shot since the dramatic increase of firearm incidents in May 2009 to **64**, **16** of which have been fatal shootings. Figure 7 shows firearm fatalities and injuries from Q1 2007 to Q3 2011:

The last 4 quarters averaged **686** compared to the average of **986** for the recent full year of 2008, reinforcing the view that the long term trend of property crime is decreasing. The decrease in Q3 2011 was mainly due to a large decrease in burglary as Burglary (Residential) decreased by 90 to 125, Burglary (Non Residential) decreased by 5 to 28 and Burglary (Tourist Accommodation) decreased by 4 to 9. A summary of Crimes Against Property for the last 19 quarters can be seen in Figure 11, with Q3 figures highlighted in boxes:

A summary of Drug Enforcement Activity for the last 19 quarters can be seen in Figure 15, with Q3 figures highlighted in boxes:

Figure 15: Drug Enforcement Activity By Quarters (Q1 2007 – Q3 2011)

8.3 Drug Seizures

The Bermuda Police Service continues to work with its partners both locally and overseas to disrupt the trafficking of controlled drugs. These partners include HM Customs Bermuda, U.S. Customs and the U.S. Drug Enforcement Administration. Despite these partnerships, controlled drugs are still entering Bermuda which is evidenced in the number of 'street' level drug seizures. This can be seen in Figure 16, which shows Drug Seizures By Location:

Figure 16: Drug Seizures In Bermuda By Location (Q3 2011)

Location	Number Of Seizures
PORT	64
STREET	154
OVERSEAS	3

As can be seen in Figure 16, the majority of drugs seized are at street level (**154**) while there were **64** seizures at ports (including LF Wade) and **3** overseas seizures which involved overseas law enforcement agencies.

An estimated total of **215 Kg** of controlled drugs with an estimated street value of **\$41.9 million** has been seized in Q3 2011 with Cocaine the most common drug, with **168 Kg** seized with a value of **\$39 million**. This exceptional high figure is due to a large amount of Cocaine seized from a boat. Cannabis is the next most common drug seized with **46 Kg** seized at a value of **\$2 million**. In addition, **586** cannabis plants were also seized in Q3 2011. The type, weight and value of the drugs seized broken down by Port, Street and Overseas seizures can be seen in Figure 17:

12. STOP AND SEARCHES

12.1 SUMMARY

Stop and Searches are conducted in a proportionate and accountable manner and only when Police Officers have occasion to exercise lawful powers. They are carried out with courtesy, consideration and respect for the individual being stopped. While the figures are not performance indicators, they are a reflection of the frequency of engagement between proactive Police Officers and Prolific Priority Offenders. They provide an indication of police activity, particularly regarding the number of highly visible patrols in the community.

There were **4,425⁴** Stop and Searches in Q3 2011, a **decrease** of **-1,527** or **-25.7%** compared to Q2 2011. When compared to Q3 2010, Q3 2011 has **increased** by **+2,084** or **+78.1%**. This can be seen in Figure 28, showing Stop & Searches for the last 11 quarters, with Q3 figures highlighted in boxes:

Figure 28: Stop & Searches By Quarter (Q1 2009 – Q3 2011)

⁴ The most recent quarterly figures for Stop and Searches lag in terms of accuracy due to the late submission of the forms to the Intelligence Department. Every quarter is updated with accurate figures, with the most recent quarter expected to increase.
